## Junior ranger: Glenrock coastal adventure tour

### Glenrock SCA

**Monday 6 October 2025, 1pm to 3pm**

Weave along Bombala walking track through the bush with your NPWS guide, before descending to secluded Dudley Beach. Once there you'll find out the ancient rainforest giants that once grew here, as you explore this unique environment.

While standing amongst the giants of the past, your experienced guide will share some skills that will help you search the waters for migrating whales.

If you have binoculars, bring them along to help you spot these creatures of the deep as they journey south to their feeding grounds.

At the end of this tour, you're welcome to share the trails with your NPWS guide on the way back to your car. Or you might like to pack a lunch and stay on this hidden gem of a beach to explore a little more on your own. Bring enclosed shoes, water, sunscreen and a hat.

### BOOKINGS ESSENTIAL—Fees Apply
